

Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.

Build empathy

PLUGGING INTO THE FUTURE AND EXPLORATION OF ELECTRICITY CONSUMPTION PATTERNS

Says

Electric energy consumption is the form of energy consumption that use electrical energy.

Electricity
has been
generated in
power station
since 1882.

Electricity consumption reflects the social development.

Detecting power consumption patterns minimize the elecricity bill.

Indian
electricity use
will grow
rapidly in the
next two
decades.

Thinks

The electrification sector is one of the first decarbonization levers as living standards rise and power is projected to triple in 2050.

1598TWh of electricity were generated in 2019-2020 of which 1383.5TWh were generated by utilities.

In the world INDIA is the third largest producer and consumer of electricity.

In the future electricity demand will depend on many variables.

PLUGGING INTO
THE FUTURE ON
EXPLORATION
OF ELECTRICITY
CONSUMPTION
PATTERNS

solarpower is the new king of electricity.

Electricity will

grow in

importance as

a carbon free

energy carrier.

Electricity will largely replace petrol and diesel as a fuel for road vechiles.

Households and businesses will also play a part through roof top solar generation.

Electricity
consumption will
likely increase in the
coming years as we
strive for net zero
carbon emissions by
2050.

Eiectricity
consumption not
only generation that
will be different the
pattern of
consumption will
also change.

A major cause nof global warming is the burning of fossil fuels to generate electricity.

For net zero energy fossil fuels need to fall to less than 20% by 2050.

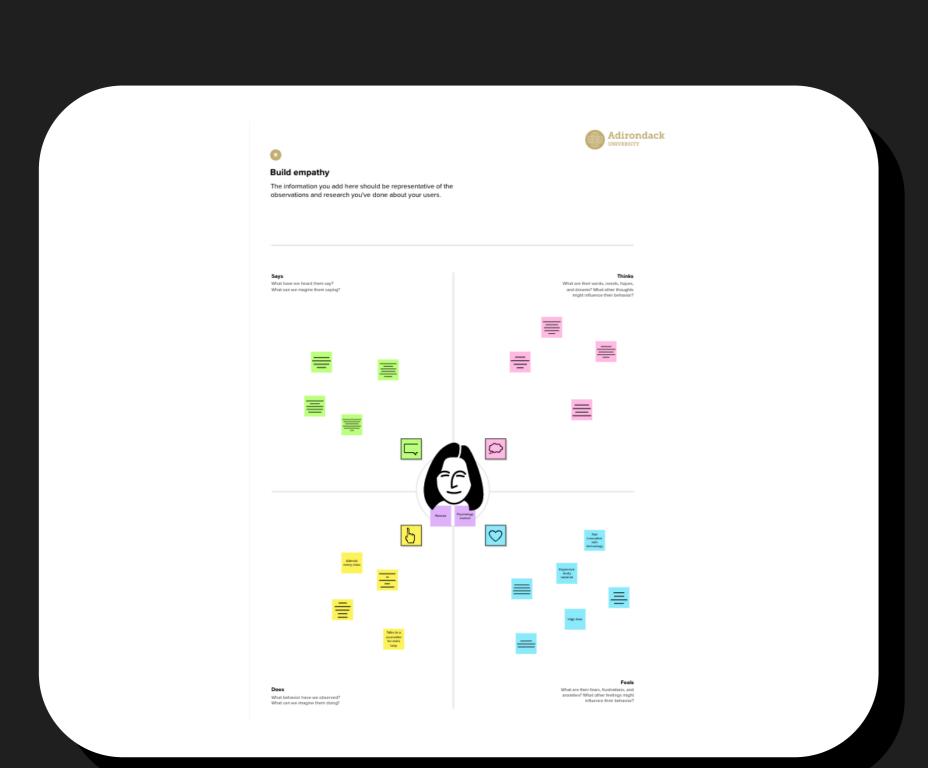

Feels

Electrification of final demand has huge implications not only for generation, but also for transmission and distribution.

Does

Let"s imagine its 2050 renewable will be the primary source of electricity generation.
